

Breaking news

Bavaria has just declared Lockdown in the whole of Bavaria to curb the spread of the corona virus. The Lockdown begins today (20th March 2020) at midnight and is valid for the next two weeks.

Everyone must stay at home, with exception of

- going to work
- going to get food from the supermarket
- visiting the doctor or the pharmacy
- going for a walk with the dog

If you want to go for a walk, you are allowed to do so alone, (not in a group!) or with your family.

The Police will be checking and controlling the streets.

Apart from that, the barbering shops, hardware stores, speech therapists and all forms of physical therapists will close starting from tonight.
